

GameDay Transfers

December 2023

1. Permits and transfers (players only)

(This is often known in ice hockey as dispensation or two-way)

The Gameday Passport system will oversee all matters concerning transfer requests, multiclub registrations, and dispensations. Within the Gameday system, these aspects will be collectively categorised as 'transfers'. Please note, transfers are for **players** only.

The process always begins with the borrowing club requesting a transfer (permit) from the player's primary club (this will be the first club the player registered with).

The process flow is as follows:

It is important that you follow the below instructions carefully to ensure the transfer process is administered correctly.

You must include the permit type as outlined below, and permit start and end date, or the transfer will default to permanent and show as 'cleared out' from your club.

Please note: Players are restricted from having more than one ongoing transfer simultaneously. This means that submitting a second transfer for a player with a pending transfer is not allowed.
